

JOHN ELWARD BROWN,
Evangelist.

One Week From Tonight

TUESDAY EVENING, NOV. 30th

AT

Central Union Church

PLAN TO BE THERE

PROF. C. P. CURRY,
Soloist and Choir Director.

"Aye, Sir, we have it
at our fingers' ends."

—Shakespeare

That's where we have the spectacle business—at our fingers' ends. That's the secret of our success; just a little ahead, never behind.

In this day of defective sight, neither young nor old should wear glasses unless fitted by one who has all the details of the science right at his fingers' ends.

We are thoroughly familiar with the eye and its needs.

SELLS \$115,000 OF TERRITORY'S BIG BOND ISSUE

One hundred fifteen thousand dollars worth of bonds have been sold by the territory, according to an announcement made yesterday by Treasurer C. J. McCarthy, a part of the \$1,420,000 issue that was voted at the last legislature and the one previous to it. The bonds bear 4 per cent interest and bring a premium of 10 cents per \$1000. They are shipped to the Mortgage and Trust Company of New York for Otis & Company of Cleveland, Ohio, the same company which previously purchased \$689,000 of the same issue. Of a balance of \$85,000 worth of the \$100 bonds left, \$26,000 are retained for insurance, \$30,000 for a local party, and \$35,000 are for sale.

GIRLS! MOISTEN A CLOTH AND DRAW IT THROUGH HAIR

It Becomes Beautifully Soft,
Wavy, Abundant and Glossy
at Once

Save Your Hair! All Dandruff
Goes and Hair Stops
Coming Out

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

Save your hair! Keep it looking charming and beautiful. You will say this was the best 25 cents you ever spent.—Adv.

Cy Young, considered one of the greatest baseball players of all time, will become a candidate for Treasurer of Turcarawas county, Ohio, on the Republican ticket.

Two highwaymen sprang in front of an automobile driven by Alexander Kastlian, beneath the Central railroad bridge in Bayonne, N. J., beat and robbed him of \$52.

ASTHMA COUGHS
WHOPPING COUGH SPASMODIC CROUP
BRONCHITIS CATARRH COLDS

Vapo-Cresolene
Est. 1878

A simple, safe and effective treatment avoiding drugs. Used with success for 38 years. The air-carrying the anesthetic vapor, inhaled with every breath, makes breathing easy, soothes the inflamed throat, and stops the cough, securing restful nights. Cresolene is invaluable to mothers with young children and a boon to sufferers from Asthma. Send us postal for descriptive booklet.

GEISHA GIRLS DANCE IS FILLED WITH SYMBOLS OF BEAUTY HERE

If present plans materialize the Japanese dances which were so popular at the recent coronation fete will be staged again at the Hawaiian Opera House on Friday evening, December 3. The committee in charge of the staging of the many events which will be numbered on the program will meet tomorrow evening to make a final decision in the matter.

The program as planned will consist of a number of the interesting dances of Japan. Perhaps the two dances most enjoyed during the last fete were the "Honolulu Beauty" and the "Koto Beauty." The "Honolulu Beauty" depicts the scenery and the beauties of Honolulu in the dance. The waving of the fans is symbolic of the waves as they dash on to the beach. The forming of the fans and the position indicates the mountains, and the swaying of the dancers is interpreted as the swaying of the palm trees in the breeze.

In the Koto Beauty the geisha girls will illustrate three features that are

FIRST LORD MAYOR OF LONDON TO ATTEND NO PUBLIC DINNERS

(By Associated Press.)
LONDON, Eng.—Sir Charles Johnston, who retired from office as lord mayor of London on November 9, is the first of the 726 men who have held that office who can boast that he has not given or attended a single public dinner during the whole year of his incumbency. "That of course, is due to the war," he explains, "for the war has changed all our preconceived notions of what a London mayorally means. We have been a serious people the past year, with no time for ceremonials and an eye single to the grim business before us. Those who know my horror of speech-making tell me with a smile that I could not have had a more congenial mayorally even if I had selected my own year."

The lord mayor quit his chair with at least one regret—that he was unable to carry out his cherished plan to visit America during his term of office. "I have many friends in America," he said, "and I have crossed the Atlantic no fewer than 78 times. But for the war I should have spent my vacation in the United States and Canada and have been the first lord mayor to visit America while in office."

Proud of London Guards.
In reply to a question as to what particular part of his year's work he was proudest of, Sir Charles said, "Without any hesitation, I would answer the establishment of that splendid body of men, the national guard of the city of London. I rejoice to have taken a leading part in the inception and organization of that important branch of the system of national defense. Other interesting features of the year's work on its war side were my scheme for providing brass bands for recruiting purposes, and later the raising of the Bankers' battalion for the front. Under the presidency of the lord mayor, the national committee for relief in Belgium has raised \$6,000,000, and several other wartime charitable funds have had their headquarters in the mayor's office."

POORER CLASSES OF BRITAIN NEVER SO PROSPEROUS BEFORE

(By Associated Press.)
LONDON.—How completely the war has baffled the foresight of economic experts is shown by the remarkable wave of surface prosperity which the masses of Great Britain are experiencing. Only a little more than a year ago political economists were discussing seriously the need for organizing the public works on a great scale for the tens of thousands who would be thrown out of employment. Now financiers like Sir George Paish, editor of the Economist, and Edwin Montagu, the financial secretary of the treasury, are sounding strong warnings against the extravagant living of the nation as a whole. "Money is being squandered on all sides," declared Sir George Paish in a recent speech, and the newspapers are taking up the

RECORD SHIPMENT OF WHEAT FROM CANADA TO GREAT BRITAIN

NEW YORK, N. Y.—What is said by grain men to be the largest movement of Canadian wheat through the United States ever recorded is now going on through this port. Records of the Produce Exchange compiled to and including Friday, October 15, show that 4,285,791 bushels have been brought here from Canada since the early part of August and reloaded on steamships for shipment mainly to England, France and Italy. This wheat, in order to avoid the payment of a duty of 10 cents per bushel,

comes through in bond. The Canadian wheat crop, estimated by grain men for this season at approximately 332,000,000 bushels, is one of the largest in the history of the Dominion and compares with 256,000,000 bushels raised last year.

The total export wheat movement through New York from August 1 to October 15 is placed at 12,111,525 bushels, of which 7,845,734 bushels were grown in the United States. Grain men say they expect the heavy export movement will continue through the entire season or until about January 1, when the Argentine crop is available.

Archbishop of Canterbury, England, receives \$75,000 a year.

FILIPINOS OF GUARD BUY OWN TROUSER GOODS

Back from Hawaii, Lieut. W. C. Whitener, U. S. A., inspector-instructor with the National Guard, said today that the militia on Hawaii is growing rapidly but that better than more growth is the great enthusiasm shown. "Even the Board of Trade is interested in the militia on Hawaii," Lieut. Whitener said. "The board has met and done its part to boost the National Guard, and so have all other bodies. Just before I left the island Gen. Johnson and I were guests at a luncheon given by the officers of the National Guard, which was a splendid affair."

AMERICAN FLYER WRITES FATHER OF FIGHTING FIVE GERMAN PLANES

PITTSBURGH, Pa.—Lieut. William Thaw, the Pittsburgh aviator with the Foreign Legion on the French front, in the following letter to his father, Benjamin Thaw, tells of a thrilling experience he had with five German airplanes the day prior to the beginning of the Allies' drive against the Germans in September.

"The other day I ran across five German machines who were laying for me at 2800 meters over — where I pass every morning. I tried to outclimb them, but one son-of-a-gun on a tiny biplane, the fastest I have ever seen in the air,

was catching me from behind, so turned on him and dived so steeply that the oiling system of my left hand motor went on the bum and flooded the motor. The German was either scared to death or badly hit, for he beat it straight down.

"But there was little Willie all alone against four Germans, with only one motor and 20 kilometers from our lines. But the enemy were kind on fery by this time and very polite, escorted me, two on each side, but well out of range, back to our lines. One, however, tried to cut-off my retreat almost above our lines, but still being well above him, I was able to give him a couple of dozen bullets from our trusty Colt (made in U. S. A.) and then I went home as fast as I could.

"A Lieutenant who was in our trenches says he saw the machine fall 'en masse' just behind the German lines."

The copper output of northern Michigan mines in October was 34,849,000 pounds, the largest for any month this year.

Grand Christmas Sale Now On

Here is your chance to get your Xmas Hat at cost price, also latest trimmings, Oriental Goods and Curios
